

OPEN KNOWLEDGE TECHNOLOGIES MAPPING AND VALIDATING KNOWLEDGE

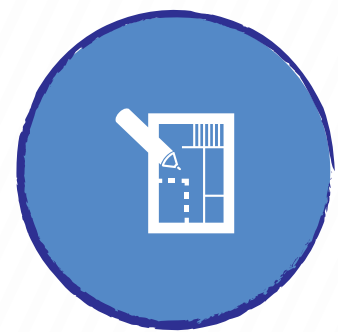

Be more competitive in the current job market with e-Skills Match project:

Access integrated services to self-assess and analyse your e-Skills and digital competences using the project's online platform.

Record and validate your individual academic and professional assets within ICT or non-ICT sectors using and managing the ePortfolio solution offered.

Plan your (re-)training if required and apply for market certifications offered by the project's platform developed.
